#### **Product Parameter of the EPDM Black Rubber Hose For Automotive Lamps:**

- ① Product name: **EPDM Black Rubber Hose For Automotive Lamps**
- ② Material: EPDM NBR Silicon or Can Custom
- ③ Logo: Can Custom
- ④ Size: Can Custom
- ⑤ Can Custom: Black or custom
- ⑥ Application: Automotive
- ⑦ Certifications: IATF16949 ,ISO14001:2015,ROHS,CMC, etc
- ⑧ Delivery: 30 -50days after sample confirmation
- ⑨ Sample: 25-30 days
- ⑩ Payment: 30% deposit, 70% payment before shipment
- ⑪ Package: PE bags, Cartons,Pallet
- ⑫ Payment Terms: T/T,L/C and so on.
- ⑬ Shipment Way: Vessel,Air,Express etc.

**Product Feature AND Application of the EPDM Black Rubber Hose For Automotive Lamps:**

**Black Rubber Hose For Automotive Lamps** which moisture from the air enters the headlamp and adheres to the lampshade. As the vapor gathers, individual drops of water flow down the lampshade. This is mostly caused by large temperature differences, with winter and rain-prone seasons most likely to cause this phenomenon.

Existing headlights have multiple ventilation tubes at the rear cover position. A lot of heat will be generated when the headlamp is lit and used. The function of the ventilation pipe is to discharge the hot air out of the headlamp to maintain the normal working temperature and pressure of the headlamp and ensure the performance of the headlamp.
